# InstaCaliper

**Made to Measure** 

Inventory

#### **Data-Driven Decisions**

Easily analyze inventory from year to year based on size, variety, grade, and location information.

#### **Increase Profits**

Digitally record precise measurements in order to accurately capture your inventory and maximize sales revenues.

### Save Money

Electronically record trunk size in seconds to minimize labor demands in the field and eliminate manual data entry for office staff.

## **Fast Inventory**

Generate a standard inventory report or set up direct imports into your current inventory software to fully automate the process.

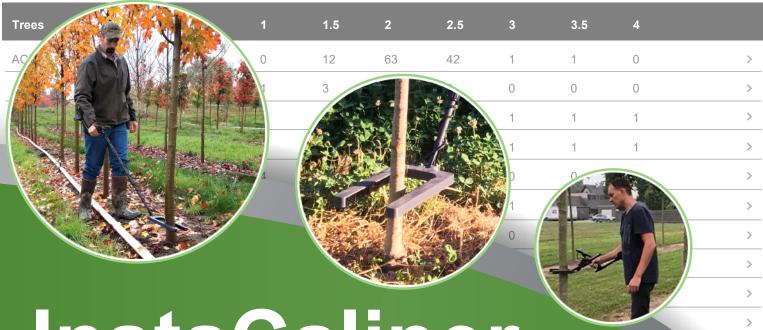

| Task:    |        |   |
|----------|--------|---|
| Task 1   |        |   |
| Minimum: | Window |   |
| 1        | 0.5    | 4 |
|          |        |   |

InstaCaliper

**Counting & Sizing Made Easy** 

Quickly measure nursery stock while standing upright. No more bending, traditional hand calipers, pencil, or paper!

Slide the 'U'-shaped base past a trunk to calculate trunk size. Record each measurement with a time, date, GPS location, variety, location, grade, and operator.

## **Features**

- Models: 50mm (2") | 100mm (4") | 150mm (6")
- Diameter or circumference
- Audio/visual feedback
- Ergonomic design
- Color size ranges

#### **Benefits**

- Anyone can do it
- Accurate measurements
- Get trunk size in seconds
- · Searchable digital records
- No more bending or kneeling
